

## **Guidelines for District and Council-Level Activities (Effective 9-22-2020)**

District-level and Council-level activities are permitted, provided the guidelines and procedures are followed:

- All relevant BSA, CDC, state, and local guidance and rules regarding preventing COVID-19 exposure are implemented.
- BSA's "[Restart Scouting Checklist](#)" is utilized as a guide for safe implementation of in-person Scouting activities.
- Event size limit of 100 people outdoors (50 people indoors) is maintained, which includes all attendees (youth, adults, staff).

All events must include the following practices:

- Pre-event communication to participants (or unit leaders for unit-based activities) regarding health and safety procedures and guidelines.
- Health screening and temperature checks upon arrival for all attendees
- Daily temperature checks for all attendees.
- Attendee roster maintained during the event and collected by event staff advisor at the conclusion of the event (utilized to assist in contact tracing in the event of COVID-19 exposure).
- A designated health officer on site for the duration of event.

It is the responsibility of the event organizer(s) to understand CDC and Department of Health Guidelines regarding group activities, such as food handling, sharing of program supplies, overnight accommodations, and use of face masks. Additionally, acquiring and maintaining PPE and other necessary supplies are the responsibility of the event organizer(s).

A Pathway to Adventure Council-designated professional staff advisor is responsible for oversight and adherence to the above standards.

Please note that all Scouting units should continue to follow the guidelines outlined in the [Pathway to Adventure Council COVID-19 Information Update document](#), which was released on September 4, 2020. The document can also be found in the September 2020 Newsletter and under the "Latest News" section of the PTAC website homepage.
