Available for All Variations**

# Council Printed Flyers

PTAC has created a set of flyers that units can get printed that feature our recruitment theme of Adventure is Calling as well as space for units to provide customized information.

These flyers can be used in a variety of formats. Talk to your school(s) to see if they will pass out flyers, post them on Community Boards throughout the community, have them available at Back to School Night/Community Festivals/Recruitment Events, and many others. Think outside the box and get creative. It is also possible to get a digital copy of the flyer(s) to use electronically, just add that in the order.

**These flyers are ordered through your District Executive.**  
*Please see the below instructions on how to place an order.*

1. Pick the design that best fits your unit and location. The flyers are titled, specify to your DE which flyer(s) you would like to order.
  - A. If you are a Family Pack, use the flyer that features both male and female youth. Flyers are also available in English and Spanish.
2. Each flyer has a space to add unit specific information. Specify to your DE exactly what you would like to include in your customizable section.
  - A. This content should focus on the 4 Ws: Who, What, Where, and When
3. Specify to your DE how many flyers that you want. You can request a mix, especially if you want some English and some Spanish. Just ensure you specify exactly what you are looking for.
4. Provide a contact to pick up the flyers when they are completed.
  - A. The flyers are printed in Chicago and we use that printer for a lot of different print jobs, so plan on flyers taking a week from when you order to when they are ready for pick up.
